

The Carbon Farming Project - Grazing component

Veronica Chapman
Burnett Catchment Care Association

SUPPORTING SUSTAINABLE LAND
MANAGEMENT IN THE BURNETT

Aims

**From
this...**

**...to
this!**

Project requirements

By June 2017

- 70 Property Management Plans with graziers across the Mary Burnett
- 2 Case studies
- 8 Workshops with 100 graziers
- 2 Field days with 30 graziers
- Extension activities / information provision

Progress at October 2014

- Resources developed
- 25 Property Management
- One case study
- 2 workshops
- Creation of working partnerships

Learnings

- “Carbon” may not be seen as a priority
- Information needs vary from person to person
- Graziers looking for different outcomes from the Property Management Planning process
- Use the above learnings to
 - attract more landholders to participate
 - provide an effective carbon farming extension service

Future

- Property Management Plans
- Provide ongoing extension & training
- Support graziers to apply carbon farming principles
- Raise awareness of new Carbon Farming Initiative methodologies
- Remain up-to-date on the current & emerging carbon policy
